9.	Machine Weight (approx.)	KG	350	550	650	950	1150	1600	1700	2200	3000	4500

Please note that dimensions and specifications are subject to change without notice.

ACE HYDROEXTRACTORS have been specially designed to cater to the specific needs of the Textile Industry. The machines are of a higher load capacity with sturdy suspension and long-lasting bearings. The basket surfaces are ground smooth thus eliminating any apprehensions about burrs, or cutting or breaking of the threads or cloths.

Our products have been well received by the silk thread dyeing industry and have come as a welcome relief for MULBERRY SILK and TUSSAR SILK units. A special STUD type of Hydroextractor is available for Cones.

ACE INDUSTRIES has more than two decades of experience in the manufacture of Hydroextractors, having supplied over 500 machines in India and abroad. Convenience with trouble-free operation and long life are the hallmarks of our machines. Our prices also are most competitive.

ACE Hydroextractors have been approved by CSTRl, Bangalore for use in silk industries.

Manufactured and Marketed by:

OUR ASSOCIATES: MAK INDUSTRIES and AIM INDUSTRIES
